JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

MEXICO.

Report from Veracruz—Inspection of vessels—Stegomyia—Yellow fever.

Acting Assistant Surgeon Frick reports, January 28, as follows:

Week ended January 26, 1907. January 20 inspected and passed the French steamship *Californie*, bound for New Orleans via Tampico, with 62 in the crew, 12 cabin, and 20 steerage passengers; vessel was delayed by a norther until January 22; the medical officer aboard certified to no sickness occurring after my inspection of the vessel and up to the time of departure; vessel allowed to proceed without a second inspection, and sails in the remains of a European cargo.

January 23, inspected and passed the British steamship *Ashfield* bound for a port in the United States via Manzanillo, Cuba, with 23 in the crew; vessel sails in ballast; was fumigated under the supervision of the medical officer attached to the Cuban consulate at this port. Inspected and passed the Norwegian steamship *City of Mexico*, bound for New Orleans via Tampico and Progreso, with 20 in the crew; vessel sails in the remains of an American cargo.

January 24, inspected and passed the Norwegian steamship *Egda*, bound for New York via Laguna and Campeche, with 24 in the crew; vessel sails in ballast. Inspected and passed the American steamship *Esperanza*, bound for New York via Progreso and Habana, with 97 in the crew, 70 cabin and 17 steerage passengers; vessel sails in general cargo. Inspected and passed the British steamship *Louisianian*, bound for New Orleans via Coatzacoalcas and Tampico, with 48 in the crew and 32 cabin passengers.

Inspected and passed the German steamship *Parthia*, bound for a port in the United States via Colon, with 32 in the crew; vessel sails in general cargo.

January 26, inspected and passed the German steamship *Hornsee*, bound for Pensacola, with 23 in the crew; vessel sails in ballast. Inspected and passed the Spanish steamship *Manuel Calvo*, bound for New York via Habana, with 120 in the crew, 44 cabin, and 39 steerage passengers; vessel sails in general cargo.

No quarantinable diseases were reported during the week.

I have seen several *Stegomyia Calopus* during the week.

February 8. Officially reported yesterday 1 yellow-fever case, imported from Paraje Nueva, located on Mexican Railway, within 5 miles from Cordoba.

PERU.

Report from Callao—Inspection and fumigation of vessels—Plague.

Assistant Surgeon Wightman reports, January 14, as follows:

Week ended January 12, 1907. Vessels dispatched by this office as follows:

The Peruvian cruiser *Iquitos* on the 9th, for Ancon, Canal Zone, carrying the officers for the new cruisers and some military students. The personnel were passed by her medical officer.

The Chilean steamship *Aconcagua* on the 12th, for Ancon, with general cargo and a total personnel of 223, of whom 2 members of

crew, 65 cabin and 65 steerage passengers were from this port. The vessel was fumigated, personnel inspected, steerage for Panama vaccinated when necessary, and steerage baggage inspected and passed or disinfected.

Two more cases of plague occurred in Callao during the week, with 1 death.

The following is the latest report of plague in other localities in Peru received from the Director de Salubridad:
